## Tomato S Marzano 2

£1.99

**Tomato San Marzano 2:** this variety is a "mid-late" plum tomato, and is a vigorous plant, producing dryer tomatoes with few seeds. This plant is renowned for producing some of the best pasta sauces in Italy. Indeterminate. Fruits are typically of 70-100g each in weight. 300-450 Seeds. Sow Feb-end May, harvest July to October.

**Is the tomato a vegetable?** The U.S. Supreme Court settled the controversy on May 10, 1893 by declaring that the *tomato* is indeed a *vegetable*!
