### Courgette seeds (Nero)

£2.34

**'Black of Milan' variety of courgette.**

This variety has attractive, very dark green skin. Regionally found in the Lombardia area of Italy. Productive plant with open plant habit making it **easy to harvest**. @45. Bush. Sow mid Mar-Mid Aug.

Courgette is a small **summer squash**, otherwise known as **Zucchini**. Courgette are best picked when small ie when under 20cm long, before the seeds have ripened and before the courgette becomes tough and fibrous. Courgette is often used in soups or as a filling for **quesadillas** - a traditional Mexican dish. In France courgette is a key ingredient in **ratatouille**, a stew of vegetables slow-cooked with olive oil.
